

# THE SOUTHERN TRI-WEELY.

VOL. II.]

WASHINGTON CITY, SATURDAY, DECEMBER 20, 1851.

[No. 55.]

## Later from Texas.

**STEAMBOAT EXPLOSION.**—By the arrival of the steamship Louisiana, Capt. Lawless, we have an extra of the Galveston News, of December 7th, giving an account of a fatal steamboat explosion, as follows:

The small steamer, Natick Hill, built in this place, started on her first trip to Double Bayou last evening, about 5 o'clock. She was crewed off very handsomely, under a light head of steam, every part of her machinery working well, and appearing to be in perfect order.

At 8 o'clock, p. m., when she was about two miles off the side of Red Fish Bar, her boiler exploded, carrying away a large part of the boiler-plate, and instantly killing two men and a negro. The following were the persons killed: Dr. A. B. Wildman, recently engaged in business in this city with L. W. Duke; Robert Shaw, a negro named Roderick, belonging to Henry B. Andrews, esq. Dr. Wildman has left several orphan children to mourn their severe bereavement, having lost their mother but a few months since; and Mr. Shaw has left a widow and a mother, who were chiefly dependent on him for their support. The cause of this terrible explosion is utterly unknown. But a minute or two before the accident, the steam was examined and found to be even less than it had been before. No serious injury was received by any of the balance on board, though some men were thrown down and bruised by the fragments of the boiler, and by the bricks of the furnace; but none of them were killed. Nothing whatever has been seen of the persons killed, who were of course thrown into the bay.

Only a few fragments of the boiler were found on board. A pretty heavy piece of it was found lying on the top of the boiler deck which was left. The hull of the boat is entirely uninjured. After the accident, an anchor was thrown over, and the survivors on board remained there till about 3 o'clock this morning, when the steamer Farmer came along from Houston, and took off some of them. The following are the persons who left here on the Natick Hill, Captain Henry Adling, mate; Jas. Ferguson, 1st engineer; Mr. Collins, 2d engineer; S. Graves, Dr. A. B. Wildman, child and sister-in-law; Mrs. Montgomery; Robert Shaw; Mr. C. D. Roderick, a negro belonging to H. B. Andrews; and David, a negro belonging to Dr. Wm. R. Smith; William, a deck hand.

Judge Buckley, in his charge to the grand jury, in Port Bend county, narrated the following incidents: He said he had known two cases in which persons had been tried before him for the crime of murder. In the first instance, four of the jurors were taken out of the jury, and the case was adjourned. In the second case, the jury was taken out of the jury, and the case was adjourned. In the third case, the jury was taken out of the jury, and the case was adjourned.

**Arrival of the Steamer Daniel Webster.** NEW YORK, Dec. 19. The steamer Daniel Webster arrived this morning with San Francisco dates to November 16th. She brings three hundred passengers and twenty-five thousand dollars in gold in freight, and six hundred thousand dollars in gold in the hands of passengers.

The Daniel Webster sailed from San Juan on the 19th November, and touched at Havana and landed one hundred and twenty passengers, and about \$200,000 in gold, destined for Charleston and New Orleans. She brings the passengers of the Gold Hunter, which left San Francisco two days after the mail-steamship Southern, for Panama, which latter boat had six hundred passengers, and one million seven hundred thousand dollars in freight, besides a large sum in the hands of passengers.

The Webster left Havana on the 14th at noon, and left in port the steamers Philadelphia and Isabel, and the U. S. ship Decatur. A Sheriff Buchanan had been shot at the Somo. A delegation from Burlington, N. J., next tendered him the hospitality of that city, for which he thanked them, saying he intended visiting Washington first, and it was uncertain whether he would return by way of New York. Mr. Col. Ward B. Burnett, with the officers of the New York volunteers, who served in Mexico, were then introduced, and presented him with \$75 for the Hungarian fund.

Then came ninety workmen employed in Messrs. Bacon & Raven's piano forte manufactory, who, after reading a handsome address to him, presented him with the sum of \$805, contributed from their own pockets. Kosuth, in an eloquent address, received his hearty thanks for the generous contribution, and expressed the pleasure it gave him to meet so many workmen who earned their livelihood by honest labor.

The Democratic Republican General Committee were next introduced, and presented an address and a copy of a series of resolutions, issued by that body. In closing his address, Daniel E. Sickles, the chairman of the delegation, said: "Some noble examples have been already made public, of large contributions, in money, to the noble cause of Hungary. A few can emulate these, and only a few. But there are millions of men, women and children in the United States, whose hearts, and hopes, and prayers are with you. These cannot give thousands, or hundreds, or ten; but they can and will give their lives."

It is to this multitude of modest and humble givers that I would desire to set an example, which I take this opportunity to do, in offering, as my contribution to the treasury of freedom, a golden dollar, fresh from our free mines of the Pacific. Millions will flow from poor but willing hands, and the 'slightly dollar,' while it may continue to be the proverbial type of money-making people, will, at the same time, become a symbol of its noblest instincts and its truest ambition.

To this address Gov. Kosuth responded at considerable length, and with much feeling, concluding by a promise that if he returned to New York, and had a day to spare, he would spend it with them at Tammany Hall.

The clergy of the several denominations, held a meeting on Wednesday, and at a point a committee to draft an address to Kosuth. The committee consists of Rev. Dr. Spencer, president; Rev. Dr. Adams, Rev. Dr. Currie, Rev. Dr. Dowling, Rev. Dr. Patton, Rev. Dr. Goehsman, Rev. Dr. Knox, Rev. Mr. Graham, and Rev. Mr. Bushell.

The letter from the President, with the resolution of Congress, was presented to Kosuth on Wednesday.

## CENSORSHIP OF THE PRESS.—At the banquet during his speech, Kosuth made the following remarks on the censorship of the press:

Yes, gentlemen, it is a proud recollection of my life that I commenced my public career in the humble capacity of a journalist. And in that capacity I may perhaps be somewhat entitled to your brotherly indulgence, as you are in the happy condition which the institutions of your country insure to you, can have not even an idea of the tortures of a journalist who has to write with fettered hands, and who is more than a century by an Austrian arbitrary preventive censorship. You have no idea what a torture it is to sit down to your writing desk, the breast full of the necessity of the moment, the heart full of righteous feelings, the mind full of convictions and of principles—and all this warmed by the lively fire of a patriot's heart—and to see before your eyes the scissors of the censor ready to fall on your head, like the sword of Damocles, lopping your ideas, maiming your arguments, murdering your thoughts; and his pen before your eyes, ready to blot out, with a single draught, the work of your laborious days and of your sleepless nights; and to know that the people will judge you, not by what you have felt, thought and written, but by what the censor wills; to know that the ground upon which you stand is not a ground known to you, because limited by rules, but an unknown slippery ground, the limits of which lie but within the arbitrary pleasure of your censor—doomed by profession to be stupid, and a coward and fool—to know all this, and yet not to curse your destiny—not to deny that you know how to read and write, but to go on, day by day, in the torturing work of Sisyphus. Oh! it is the greatest sacrifice which an intelligent man can make to fatherland and humanity!

**MYSTERY OF THE AMERICAN LAKES.**—Lake Erie, says the Dublin Magazine, is only sixty or seventy feet deep; but the bottom of Lake Ontario, which is 452 feet deep, is 230 feet below the level of the ocean, or as low as most parts of the Gulf of St. Lawrence; and the bottoms of Lakes Huron, Michigan, and Superior, although their surface is so much higher, are all, from their vast depth, on a level with the bottom of Lake Ontario.

Now, as the discharge through the river Detroit, after allowing for the full probable portion carried off by evaporation, does not appear by any means equal to the quantity of water tie three upper great lakes receive, it has been conjectured that a subterranean river may run from Lake Superior to Huron, and from Lake Huron to Lake Ontario. This conjecture is by no means improbable, and will account for the singular fact that salmon and herring are caught in all the lakes communicating with St. Lawrence, but in no others.

As the falls of Niagara must have always existed, it is not a puzzle to the naturalist to see how these fish got in the upper lakes without such subterranean river; moreover, any periodical obstruction of the river would furnish an all the lakes communicating with St. Lawrence, but in no others.

**ACTION OF WATER ON LEAD PIPES.**—The attention of medical men is requested to the following circulation of one of the committees appointed at the last meeting of the American Medical Association:—

**To the Members of the Medical Profession in the United States:** The undersigned, a committee of the American Medical Association to report on "the action of water on lead pipes, and the diseases which proceed from it," are desirous of obtaining from these professional brethren any information that is calculated to throw light on this important, but hitherto general unobserved subject. They therefore take the liberty of proposing the following questions:—

1. Have you, in your practice, met with cases of lead or painter's colic produced by using water drawn through lead pipes, or contained in leaden cisterns? 2. Have you met with cases of arthritis? If so, have they been attributed to this cause? 3. Have you observed paralytic diseases observed by you, among persons using water thus exposed to lead? 4. Have you seen instances of lead encephalopathy? 5. Have you observed paralysis as a precursor, concomitant or sequel to either of the above forms of disease? Answers to any or all the foregoing questions, and any facts or information as to any form of disease originating in the use of water impregnated with lead, will be very gratefully received, and will be sent to the undersigned. Accurate descriptions of all cases would be very desirable, especially their early history. It will also be very important to know the length of time each individual case had been exposed to lead before the disease became manifest.

As the report must be made at the annual meeting of the association to be held in Richmond, Virginia, in May next, his desirable that all information should be forwarded to any of the committee previous to the first of March next. HORATIO ADAMS, Waltham, Mass. SAM'L L. DANA, Lowell. JOHN C. DALTON, " Committee. Waltham, Dec. 5th, 1851.

**Boston, Dec. 27.** SECOND FAILURE TO ELECT A MAYOR OF BOSTON.—The second trial to elect a mayor of Boston has resulted again in no choice. Sewer, the Whig candidate, has 376 votes; Smith, the Democratic candidate, 2673; Thaxter, Native American, 1238. Three Whig aldermen, and two Whig councilmen are elected.

**Letter from the Plains.** ST. LOUIS, Dec. 16.—Messrs. A. W. Reynolds & Co. arrived yesterday from Independence, Mo., en route to Washington. They bring no news of interest from Santa Fe. The weather on the Plains has been extremely cold, and the party encountered continued snow storms, which proved very fatal to their animals.

## The Case of Thrasher.

The letter of the mother of John S. Thrasher, to the President of the United States, will be read with deep interest. It places in their plainest light, the circumstances of this foul tyrannical transaction.—Unless our authorities have hearts of stone, and fees dead to shame, they will not resist this simple appeal, not for money, but for justice.

The people of New Orleans are glad to see, are moving in the matter. One general feeling of indignation appears to pervade the entire city. A large meeting was to be held at the Banks Arcade, Wednesday night, and we expect a demonstration of public sentiment worthy of the occasion.

From Havana we learn, by a letter to the Picayune, that the Cuban authorities refused to permit the service of plate, forwarded from New Orleans, for presentation to W. Sidney Smith, the British consul, to be landed, and that it was taken on to New York, by the steamer Empire City. A deep-rooted hatred exists with the Spanish inhabitants, against all who minister to the comfort of the Lopez prisoners.

A letter from Mr. Thrasher to Consul Owen, dated November 15th, one week before the conviction, is published in the papers. It recites the facts of his residence in the island, declares that he never had taken out letters of naturalization, and was not liable therefore to be tried as a citizen for treason; and calls upon Mr. Owen to support the rights of the mails and passengers from Panama, and returning without delay with the mails and passengers for the steamer from San Francisco.

A regular line of propellers will be kept up for the transport of the mails and passengers from Panama and San Francisco. The well-known steamer Sarah Sands, o 1,500 tons burden, now under charter to the company, and peculiarly commodious in her cabin arrangements, will be kept running as an extra family boat.

One of the above steamers will keep up the connexion between Acapulco and the other Mexican ports, and will be kept running as an extra family boat.

**CINCINNATI, Dec. 18.** FAILURE OF THE MAIL.—Owing to the severe storms recently prevalent, the Eastern mails several days past have failed, and the latest New York dates are up to Thursday last. In consequence of this, bills have been protested, to meet which, remittances had been forwarded from the East.

**DUFF GREEN, BEN. E. GREEN.** Attorneys at Law, Washington City, D. C. PRACTICE in the Supreme Court of the District of Columbia, and in the Courts of the District of Columbia; and attend promptly to all claims against the United States, or Foreign Governments.

**WASHINGTON, August 1, 1851.** Sir—After consulting many persons interested in the principal Rail-Roads in the United States, the undersigned propose to establish agencies in this city and in New York, for the purpose of collecting facts and authentic Rail-Road statistics, and such other information as will enable them to serve persons desiring to invest in Rail-Road securities, or to procure information of any matters connected with the construction and administration of Rail-Roads. The undersigned propose, upon contract to contracts for carrying the mail, so as to authorize the Post Office Department to contract for the perpetual use of Rail-Roads, and instead of paying, as now, quarterly contracts for the use of the Rail-Roads, to advance in five per cent. bonds of the United States, chargeable upon the revenues of the Post Office Department, an amount, the interest upon which at 6 per cent. would equal the payments now made.

The government now pays \$300 per mile for carrying the mail on first class Rail-Roads. This is 6 per cent. on \$5,000. The undersigned would urge that, instead of paying \$300 a mile, per annum, the Department should advance, in perpetuity, five \$1,000 bonds, bearing an interest of five per cent. At this rate the charge upon the Department would be reduced from \$300 to \$250 a mile, per annum, and the \$50 per mile would create a sinking fund which will, in a few years, pay off the Bonds, and give the use of such funds forever thereafter, free of all charge; thereby effecting a vast saving on the present annual expenditure of the Post Office Department, and a consequent reduction of the rate of postage.

The effect will be no less advantageous to Rail-Road Companies than to the government. For instance, such a contract would give to the Baltimore and Ohio Rail-Road Company, which now receives \$200,000, which would enable that company to invest its road at an early day, and greatly increase its business and profits.

But to meet objections and impress the public mind with a proper sense of the benefits to result from this measure will require concert of action and continued active effort, through the press and otherwise. The undersigned tender their services to your Company, expecting a reasonable compensation, and being empowered by the measure; and respectfully suggest the propriety of your sending one or more delegates to this city, on the first Wednesday in December next, to confer with delegates from other Rail-Road Companies, as to the details of the proposed arrangement and the best mode of bringing the subject before Congress.

Should it be your pleasure to accept of our services in this matter, we will promptly attend to all other business, which you, or your Company, may have with the Post Office Department, or other branch of the government.

Hoping to hear from you at your earliest convenience, we are, respectfully, your ob. serv. ers. BEN. E. GREEN. DUFF GREEN.
